AFTERSCHOOL PROGRAM

YOUR WHY IS OUR WHY

Ooze Studio offers a safe and inspiring place for kids and teens to reconnect with themselves and their community by finding, using and growing their innate creativity. Here's why Ooze Studio is great for your school:

ACADEMIA - Did you know arts education shows that students are 5x's less likely to drop out of school, 3x's more likely to get a bachelor's degree and 30% more inclined to pursue a professional career? Art programs improve memory, concentration, decision making and critical thinking skills, motor skills, enhance communication and listening skills but also encourage focus and discipline.

BONUS: Arts education has a significant effect on the academic and social successes of students.

SELF - Creativity and imagination are part of what makes us human and they are intuitive necessities that we can help cultivate in everyone, no matter your artistic talent, or lack there of.

BONUS: The arts encourage an improved understanding of self and a greater sense of confidence among students while exploring varied avenues of self-expression.

COMMUNITY - By connecting through art and creativity, you build your sense of community and develop a healthy outlet for *everyone equally*, including those with social hindrances, behavioral issues and more.

BONUS: Your contagious creativity helps bridge cultural divides in your community while reaching people at their core.

PRINCIPAL OF SKYRIDGE ELEMENTARY

Mia Temple, has created an art renaissance at Skyridge Elementary School. Her enthusiasm to bring thoughtful art lessons to all students and leading the Art Docent program at our school this year has been inspirational. Her lessons cover different genres and students look forward to their time with her and our art docents. Art allows our students to express their creativity, thoughts, and develops motor skills, social skills, risk taking, and inventiveness for all learners. Skyridge values the Arts for our student's education. We are lucky to have parents such as Ms. Temple that are willing to share their artistic vision and talent with our students, staff, and school. We fully support her opening of Ooze Studio!
