To Whom It May Concern;

I am delighted to provide a recommendation for Mia Temple at Ooze Studio. I had the fortunate opportunity to work with Mia when she provided a 7-week art workshop for my clients diagnosed with autism. Her creative, adaptable, and flexible approach allowed our clients of all ages (3 – 20 years of age) to participate in this incredible event.

Mia is an incredible instructor and creates a therapeutic and safe environment for individuals to explore various therapeutic art mediums. Her workshop included both group and individual instruction, and she provided materials that really promoted a wonderful sensory experience for our clients. While being given the opportunity to explore artistic expression, all the participants were also actively working on fine motor, flexibility, attention, active listening, sharing, emotional regulation, and sensory exploration and tolerance. The most exciting outcome was how much our clients were engaged, joyful, curious, and creative. They asked to return every time and truly enjoyed the experience.

Mia has created an amazing opportunity for anyone interested in art, but especially for neurodiverse individuals who would benefit from a calming, regulating, and pleasurable experience. Her talent is profound, and her warm and delightful personality makes the experience even more powerful.

I personally learned a lot from Mia and look forward to continuing these workshops every opportunity I can! In summation, I give Mia and Ooze Studio my highest recommendation.

Sincerely,

Melissa Newman, PsyD
